INTERAGENCY ROTATION PROGRAM

TESTIMONIALS

You will gain confidence, learn new methods, improve current skills, see your current job with a new perspective, and expand your professional network. If you are feeling like you are in a professional "rut" and need a change, the PMC Rotation will energize your professional development to take you to a whole new level.

Duane Voy
PMC Fellow from Minneapolis, Minnesota

As a host supervisor, I got as much, or more, out of the program: I had someone to complete a project I hadn't been able to launch myself, I had another person to communicate with and describe our needs, and I got to learn from their approach and perspective. It is an all around win!

Shawn Miller
Host Supervisor from Overland Park, Kansas

Although we have different missions, we have similar challenges. Being able to see a different approach to resolving issues broadened my perspective and gave me new insights to apply in future problem solving at my home agency.

Ginger LaRue
PMC Fellow from Atlanta, Georgia

My favorite part of the PMC rotation was the opportunity to build collaborations between community groups, federal agencies and state/local agencies. The program gave me the opportunity to step outside of my typical role as policy/program reviewer and serve more as a facilitator of new/enhanced ideals.

The program introduces you to new environments out of your normal comfort zone and helps develop the skills needed to thrive in various positions.

Erica Drummond
PMC Fellow from Kansas City, Missouri

I have used the program for three years and have never been disappointed by the quality of the participants and how they are able to contribute immediately to our organization.

Rebecca Ayers
Host Supervisor from Raleigh, North Carolina

It is a great way to gain experience at another agency and its culture. You will also have an opportunity to learn more about yourself and observe other leadership styles. More importantly, it can grant you an opportunity to develop competencies you have been wanting to develop.
